Midland's lead singer/guitarist Mark Wystrach grew up in Sonoita, where his parents own the popular The Steak Out Restaurant & Saloon and graduated from Tucson's Salpointe Catholic High School. Since coming together in 2013 at a friend's wedding over common influences and the need for a return to this sort of post-Urban Cowboy Country, Midland have sought to reintroduce the Western plains, Laurel Canyon-cum-Bakersfield and Lone Star juke joints to country music. For Wystrach, bassist/vocalist Cameron Duddy and lead guitarist/vocalist Jess Carson, the double platinum hit "Drinkin' Problem" set the stage for their critically acclaimed "On The Rocks" and No. 1 Billboard Top Country Albums debut "Let It Roll" to unite classic country fans, hipsters and media including Entertainment Weekly, GQ, The Washington Post, Vogue, Esquire, Variety, Rolling Stone Country and NPR. Bringing listeners a resurgence of their thick harmonies, sad melodies, tart lyrics, and steel guitar with their latest album, "The Last Resort: Greetings From" (Big Machine Records), the retro-Nuevo trio has grown from bar band to an in-demand headliner. The double Grammy® nominee trio last performed in Tucson in September 2022.

Clyne is preparing to release his 11th studio album in 2024. Together, with drummer PH Naffah, guitarist Jim Dalton and bassist Nick Scropos, the Peacemakers blend punk rock, country-western and mariachi music to create a sound that earned the band induction into the Arizona Music and Entertainment Hall of Fame in 2019. Roger Clyne & The Peacemakers have toured all over the U.S. and have achieved a faithful following through hard work and great music.

About Cologuard[®]

The Cologuard test was approved by the FDA in August 2014, and results from Exact Sciences' prospective 90-site, point-in-time, 10,000-patient pivotal trial were published in the New England Journal of Medicine in March 2014. The Cologuard test is included in the American Cancer Society's (2018) colorectal cancer screening guidelines and the recommendations of the U.S. Preventive Services Task Force (2021) and National Comprehensive Cancer Network (2016). The Cologuard test is indicated to screen adults 45 years of age and older who are at average risk for colorectal cancer by detecting certain DNA markers and blood in the stool. Do not use the Cologuard test if you have had precancer, have inflammatory bowel disease and certain hereditary syndromes, or have a personal or family history of colorectal cancer. The Cologuard test is not a replacement for colonoscopy in high-risk patients. The Cologuard test performance in adults ages 45-49 is estimated based on a large clinical study of patients 50 and older. The Cologuard test performance in repeat testing has not been evaluated.

The Cologuard test result should be interpreted with caution. A positive test result does not confirm the presence of cancer. Patients with a positive test result should be referred for colonoscopy. A negative test result does not confirm the absence of cancer. Patients with a negative test result should discuss with their doctor when they need to be tested again. Medicare and most major insurers cover the Cologuard test. For more information about the Cologuard test, visit www.cologuard.com. Rx only.
